CATERED MEALS FOR PRE-SCHOOLS

The pre-school sector has had increasing difficulty in recent years recruiting certified cooks for its centres. As existing hires go into retirement, this challenge is expected to be amplified in the near term. In order to develop a sustainable solution for the sector, the Employment and Employability Institute (e2i) and the Association of Early Childhood and Training Services (ASSETS), supported by Workforce Singapore (WSG) and the Early Childhood Development Agency (ECDA), have collaborated to launch an initiative to source the provision of quality, wholesome meals to the sector by caterers that meet stringent pre-qualifying criteria including food safety and hygiene and a good track record.

SATS Ltd, through its wholly-owned subsidiary SATS Food Services Pte Ltd (SFS), has been appointed as the caterer for this pilot

MODERATION
ENJOY EATING ALL TYPES OF FOOD BUT IN THE RIGHT QUANTITY

Through our advocacy for Balance, Variety and Moderation, SFS hopes to bring pre-schools more than food on the table, but to also participate in your child's education on building healthy eating habits. All meals served are Halal and menus are planned by our in-house Dietitian in line with HPPB's guidelines for Healthy Meals for in Pre-schools Programme (HMPP).
